

The ointment that does not irritate the skin contains 0.5-10 mass % of Piroxicam, 15-30 mass % of hydrophobic carrier(s), 60-75 mass % of hydrophilic carrier(s), 0.1-10 mass % of additive(s) and emulsifiers. Polyethylene glycol, alkyl or alkenyl ether and sorbitane ester of the fatty acid or oleic acid are used as emulsifiers at a mass ratio from 3:1 to 1:3.
