

Proposed is herbicide agent comprising derivative of N-[(1,3,5-triazin-2-yl)aminocarbonyl]benzosulfonamide and purpose additive. As derivative of N-[(1,3,5-triazin-2-yl)aminocarbonyl]benzosulfonamide it contains compound of the general formula I

where R^1 – methyl or ethyl;

R^2 - haloid, trifluoromethyl, 2-methoxyethoxy, C_1 - C_3 -alkylsulfonyl;

R^3 - hydrogen, chlorine, fluorine, methyl or ethyl,

or salts thereof at an efficient amount.

Proposed is also a method for controlling undesirable vegetation by treatment of plants or places of vegetation thereof by derivative of N-[(1,3,5-triazin-2-yl)aminocarbonyl]benzosulfonamide. As derivative of N-[(1,3,5-triazin-2-yl)aminocarbonyl]benzosulfonamide compounds of the general formula I are used.
