

An improved gasketed mounting cup (10) for an aerosol container (12) wherein the gasket (16) is a folded-over and hinged sleeve gasket; the gasket being used as an alternative to the cut-type gasket. In the preferred version, the hinge is distal to the body portion of the mounting cup. There is also provided a method for forming the improved gasketed mounting cup, as well as a novel punch (50) for forming the folded-over or hinged gasket.
